

CORONA VIRUS (COVID-19) – ADVISORY 2

Dear All,

Jaipuria Institute of Management is closely monitoring the ongoing Coronavirus Disease 2019 (COVID-19) pandemic. As the situation continues to change rapidly, we at Jaipuria are leaning on our vision, mission that *promotes human well-being through continuous improvement*.

We are taking several proactive and prudent measures to ensure the health, safety and well-being of our community; on and off campus.

REMOTE LEARNING AND ACADEMIC CONTINUITY:

As we are near completion of academic session 2019-20, the remaining last mile classes have been planned to deliver through online modes.

- Jaipuria is focussing on online instruction/teaching for all its PGDM classes, through Impartus, Cisco Webex and Zoom.
- Additionally, students can also discuss their course work with respective faculty members/ mentors across campuses through telephone/WhatsApp and other modes that are available. We will continue to leverage the available remote learning technology to ensure the continuity of our teaching.
- Since all of you are advised to refrain from socialising, grouping and traveling, and expected be at home, we would like you utilise available time very effectively by pursuing some online courses on Udemy, Coursera etc. which are available free as well. You may read books and watch movies / videos to enrich your learning experiences.

CAMPUS RECRUITMENT FOR FINAL PLACEMENT AND SUMMER INTERNSHIP

Although most of our recruitment process are completed. As a preventive measure, we have coordinated with companies and have convinced them for online recruitment processes for summer internship and few of our pending final placements. These will be through video conferencing, zoom and skype so that students are not affected.

ADMISSION PROCESS

We shall conduct all admission processes remotely through hangout, skype, WhatsApp etc. Our approach will be very transparent and equitable, so none of the aspirant are disadvantaged. Using fair selection practices remains highly important to us.

SAFETY AT CAMPUS

The health and well-being of our staff, faculty and students is of utmost priority. By reducing the number of people on campus, we seek to slow down the potential transmission and reduce the risk. However, we recognize that many staff may be on campus to support academic activities of the Institute, hence, proper precautionary steps are implemented in campuses – like availability of face mask, hand sanitiser and infra-red thermometer and other safety measures to fight the menace.

We will continue to update you regularly. We also encourage everyone to continue to be diligent with basic health precautions as per WHO guidelines. Please find basic safety guidelines at –

<https://www.youtube.com/watch?v=4dc1cTzHv1A>

Consult the doctor immediately if you feel unwell.

We are all in this together.

Be Safe, Be Protected.
